What can't a potato do?!

In *The Potato Book*, there are many recipes for preparing potatoes.

On the lines below, list every way that you can think of to eat potatoes.

When you get home, use a piece of paper to make a potato print.

## How to make a potato print

- 1: Choose a large potato.
- 2: Have your adult cut the potato in half (hamburger style)!
- 3: Draw a shape on the inside of one half of your potato. Circles, stars, or planets are fun and easy!
- 4: Ask for help using a butter knife to carve around the outside of your drawing so that your shape sticks out like a stamp.
- 5: Carefully pour out some craft paint onto a paper plate, recycled piece of cardboard, or whatever else you have at home, and press your potato stamp into the paint.
- 6: Press your freshly painted potato stamp onto a piece of paper as many times as you want to show off your potato printing skills

Use the other potatoes in the bag to make your family's favorite potato recipe together!
